Fields

Farms, Fields, and Field information, such as maps (if available), acreage, current weather conditions, and Field activity can be viewed from the *Fields* menu.

Search

Fields can be searched and filtered using the *Search* field at the top of the page. Search by *Farm* name, *Field* name, or *No. of acres* to filter results.
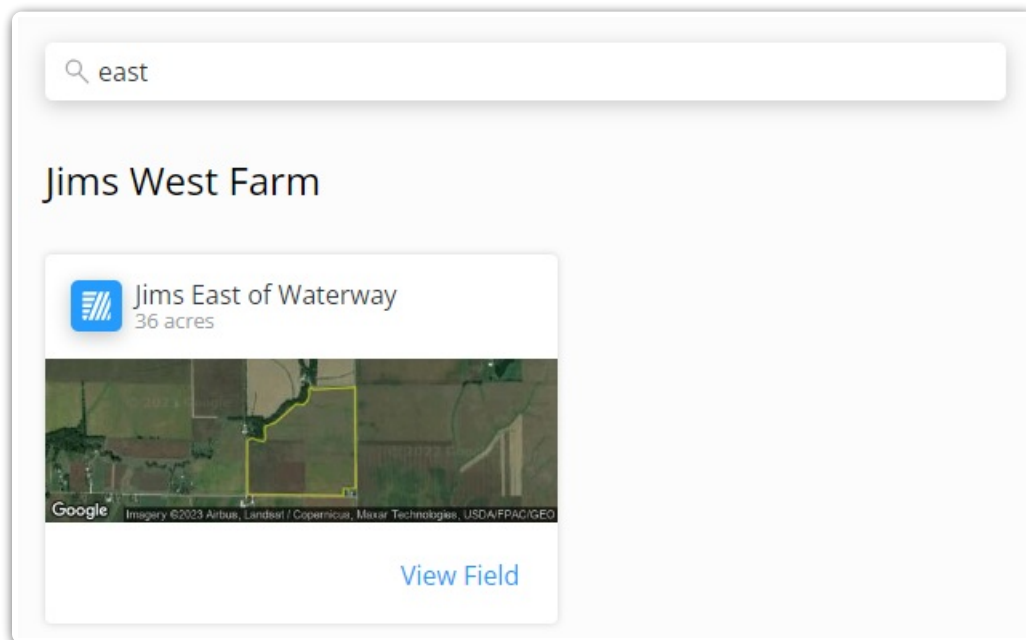

Farms

Each Farm is listed in bold, with associated Fields displayed under the *Farm Name.*
To display fields for a specific Farm, filter the results by typing in the *Farm Name* in the *Search* field at the top of the page.

Fields

Fields are grouped by *Farm Name*. Search for specific fields and/or filter results by entering part of the *Field* name or the *No. of acres* on the field in the *Search* field at the top of the page.

Choose **Request Service** then check the appropriate fields to send a service request. Indicate the *Application Type*, *Crop*, optionally include *Window of Application*, and enter any *Comments*.

Selecting a field displays the *Field Details* page for that field.

- **Field Info** – Displays pertinent field information.
    - **Tillage Type** – View the *Tillage Type* or select the **Pencil** icon to edit.
    - **Field Splits** – Displays each responsible party on the field, along with the percentage of the field for which they are responsible.
    - **Current Conditions** – Displays the current weather conditions, including the High and Low temperature for the day, rainfall in the last 24 hours, and wind speed and direction.

    - **Maps** – Displays a satellite image of the field based on the current mapped information on record.
        - Selecting **View Maps** displays a full-page view of the map for that field along with available soil test results.

    - **Crop Information** – View *Crop Year*, *Crop*, and *Crop Chemistry* if available.
    - **FSA Information** – Select **+ Add FSA Information** on a Field to add Farm Service Agency information to that Field if needed/available. At least one field must be populated in order to **Save**.
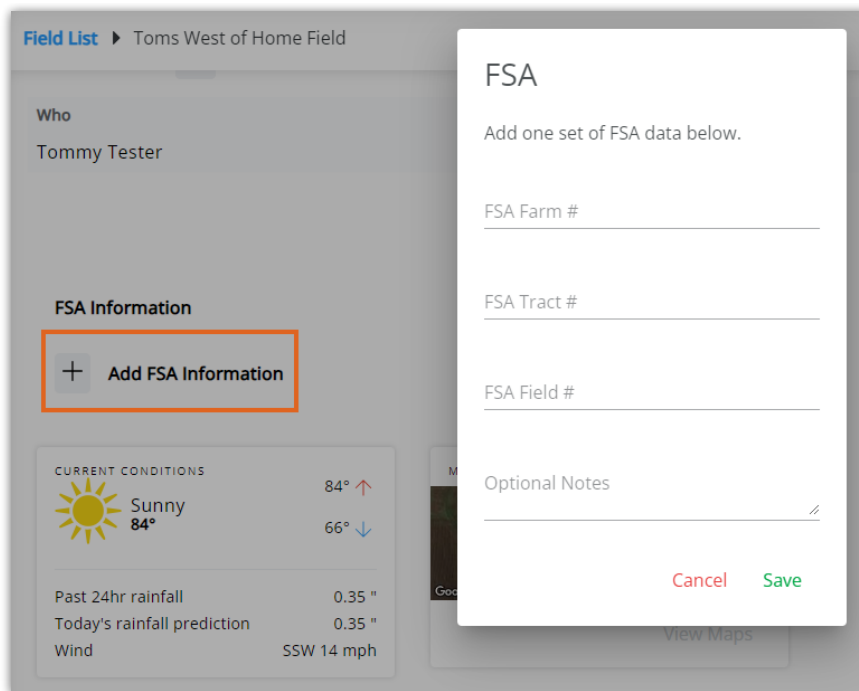

- Plans – Choose **View Plans** to **Accept**, **Reject**, and optionally add any comments. Select the **Eye** icon to view more details on a specific Plan.

  Note: Plans priced by Analysis display only the analysis and no product information.

- **Activity** – Displays all recorded transactions for the selected field.

- **Order #** – This is the number for the Blend Ticket, Field Plan, or Booking on this Field-associated transaction.
- **Billing Notes** – Any notes associated with the transaction for billing or other purposes display here.
- **Ordered Date** – This is the date the transaction was recorded.
- **Crop** – This is the crop associated with the transaction.
- **Area Applied** – This is the total acreage covered by the transaction.

- **Completed Date** – This is the date the transaction was completed. This is often the date the product was applied to the field.
- **Invoice** – This is the Invoice number associated with the transaction.
